

COLLEGE AND INDUSTRY CERTIFICATIONS

Want to start your career while in high school? Our college and industry certificate program provides high school students with an innovative platform to enroll in a certificate program and upon completion start their career. This is a unique opportunity to explore some of world's top universities and engage with professors in an online setting without accumulating large amounts of debt.

Meet Jessica Sayers, a Broward County Florida student. While in 11th grade Jessica completed a HI FIVE: Health Informatics for Innovation, Value & Enrichment Specialization at Columbia University.
